“I would like to get this before the Board of Supervisors; it’s been on the back-burner for over a year and a half.

1. Get bike lanes into any new development, making it a requirement of any new development as it exists in York County and the City of Williamsburg.
2. Jamestown Road, the development where there is a turn lane on Jamestown Road - the turn lane was suppose to be decreased to minimum footage so you could have bike lanes of 27 inches on both sides. When they restriped it after adding on to Jamestown Road, Brewer failed to supervise the paint crew and the bike lanes were wiped out in that turn area into that development. That needs to be restriped in that area the way that it was suppose to be done in the first place.

Thank you.”
