Hire more inspectors to make sure buildings are built properly. No more shopping centers. Don't expand any of our roads.

More bike paths – one suggestion by way of “Old Country Road” from Kingsmill to Colonial Williamsburg. More opportunity for left turns at intersections similar to Williamsburg left turns off Richmond Road onto Monticello Avenue (yield on green). Cooperative effort with neighboring communities in providing a community center for the performing arts (auditorium – convention center).

Slow commercial & residential growth. Stop approving rezoning for development until accumulative impact assessed. Maintain the County's identity by not overdeveloping.

Please clearly address provisions for work force housing and restrictions on building near the wetlands + creeks. The building in the Upper County does have impacts on all of the County!

Free bus fare for the less fortunate. Less building going on to save our water!!! Lower taxes on housing or land (instead of increase every year). More affordable housing for the less fortunate.
