I want less development, more greenspace. It would be beneficial to have a Botanical Garden at Jamestown Campgrounds.

Please consider placing a Williamsburg Botanical Garden to support this effort.

We need a park facility where large groups can gather for events like picnics and musical presentation.

Improvements need to be made to the aging infrastructure of the James City County-Williamsburg Recreation Center.

No on airport; yes on upscale housing and commercial; no on affordable housing.

The County has allowed far too much retail growth in recent years, way too much!

Definitely overbuilt! What was a unique town is now being destroyed. Who needs all these new shopping centers and subdivisions. Already the motels are complaining about low occupancy but big new ones are being built. Why won't the Board of Supervisors and others in government listen to us?

Please stop the continual overbuilding – both residential and commercial. The area is already far too congested! And driving is becoming hazardous.

1. Growth – please, it must stop or, at the very least, slow to a crawl. Small-town Williamsburg is gone and sprawl is taking over much to the dismay/disgust of many.
2. Water – directly tied to overdevelopment. We don't have enough, we don't get enough rain, but thanks for the rebate incentives!
3. Sidewalks and crosswalks – walking is cheap, healthy, and non-polluting.
